For all inquiries email: dementia@uow.edu.au

This half day event will give you an opportunity to hear and discuss the views of three people who are passionate about the care of people with dementia.

- Cathy Greenblat - internationally acclaimed photographer who uses her photographs to explore and illustrate high quality care and the experience of living a full life with dementia. Cathy will be returning to Australia after the highly successful tour of her Love, Loss and Laughter exhibition hosted by Alzheimers Australia in 2013. (www.LoveLossAndLaughter.com)

- Richard Fleming - Director of the NSW/ACT Dementia Training Study Centre who specialises in improving our understanding and design of buildings that enhance the quality of life of people with dementia.

- Colin McDonnell - Manager of Starrett Lodge, UnitingCare Ageing’s award winning home that demonstrates the effectiveness of good design, vision directed management and the involvement of families and the community in delivering high quality care for people with dementia.

You will leave with new ideas on how to push the boundaries of residential care for people with dementia.

Presented by the NSW/ACT Dementia Training Study Centre, UnitingCare Ageing,
University of Wollongong, Living Well Longer and Australian Journal of Dementia Care.
